VINITA, INDIAN TERRITORY, THURSDAY, MAY 22, 1890.

CURRENT COMMENT.

THE CERT of Russia has decided to make Theodosia the future commercial port of the Crimea.

SENATOR GORMAN has been chosen

tenced to terms in prison. The famous Ogdon residence, which

escaped from the North side fire, Chicago, in 1872, is to be torn down to make way for the great Newbury library. The building was a landmark.

avoid disputes on the frontier to strip a wide space of ground on either side of the boundary line and place at frequent intervals large stones marking the line of delimitation conspicuously.

manufacturer, deaying certain statements previously made in the Heuse by Mesars. Bynum of Indiana, and Wison, of West virginia, and denouncing them. This brought Mr. Bynum to his feet who declared Campbell to be a liar and a perjuer.

A LARGE number of firms in Pennsylvania intend to engage in beet sugar culture this year and if the venture is place of corn and wheat hereafter. Claus Spreckels is expected to be a large purchaser of the crop when it is grown.

THE steamship Werra, of the North German Lloyd Company, has reached New York, having on board Director Strauss, of Vienna, and his well known party. A party of friends and admirers, among whom was the Austrian vice consul, went down the bay to meet the party and bid them welcome.

SEVERAL of the St. Peteraburg news papers express surprise at the war-like tenor of the speech made by Emperor William at the banquet at Koenigsburg. after his pacific speech from the throne at the opening of the Reichstag. The papers express especial surprise at the nature of the speech when it is considered that his Majesty is making preparations to attend the maneuvers of the Russian army at Krasnoe Szelo. They declare there is nothing in the situation as far as Russia is concerned to justify the tone of the speech.

As authorized person near President Diaz says that those favoring the abolition of the duty on paper used in printing are bringing a strong pressure to that the Government will not accede to a total exemption from duty, although it will reduce the tariff. The American, General Sturm, has obtained a concesalon for a paper manufactory, granting manufacture. It is believed that he will be obliged to sell paper at a reduced privileges accorded him.

Tire libel amt of \$10,000 brought by Attorney Albert Knettles, of Minneapolis, Minn., ngainst the Pioneer Press was thrown out of court by Judge Hicks in favor of the newspaper. The point in question was whether a newspaper had the right to publish a statement or a question when that statement was libelous in itself, even though the publication of it was accompanied by no malice. Judge Hicks decided that it had such right and that the fact of the matter being privileged exempted the newspaper from it, and the paper could not compelled to rest its case on the truth of the privileged publication.

INTERUCES for the succession to Mr. Gladstone are at the present moment very active, writes Edmund Yates. Mr. Gladstone was taking very little part in the business of the House, and, therelere, It was necessary that the claimants for the place should put themselves much in evidence. All that was antbelieved, was that Lord Granstone and that Earl Spencer would be- cumulated. come titular leader of the party. The tion to the T.thes bill and by giving to

VOL. VIII. NO. 37.

In fattening stock, grass can be used to help, but the proportion should be much less than in feeding for growth. In fattening stock for market, when It can be done without too much incon-

venience, it will be best to keep the

young stock separate. If the hogs must be kept confined, in a majority of cases it will be found best to cut rye or clover and feed them regularly; better health and thrift can be

The successful stock-raiser must know how to breed, feed and market to the best advantage. In order to be able to realize the best profit, each is important.

Losses of range cattle in Nevada were very heavy the past winter. Whole herds were wiped out in some cases and many were cut down from seventy-flys to ninety per cent., says the Chicago Drovers' Journal. Breeding mules, like breeding horses,

can be made most profitable by only breeding the best. The cost of service a good sire will make a considerable difference in the quality. If young pigs are permitted to run
